The background is a solid teal color. It is decorated with several organic, wavy green shapes in various shades of green. Scattered throughout are numerous small, translucent bubbles, some of which contain tiny, stylized illustrations of cells or microorganisms. The word "Win!" is centered in a large, white, sans-serif font.

Win!

The background is a solid muted purple. It features several large, organic, wavy shapes in olive green and brown. Scattered throughout are various stylized biological elements: some cells with yellow oval organelles, others with pinkish-purple internal structures, and several circular cells with detailed internal components like red mitochondria, blue nuclei, and orange Golgi apparatus. There are also numerous small, semi-transparent pink and orange spheres floating around.

Loose!
